

IMPORTANT NOTICE

The quoted rates are believed to be in accordance with the rates prescribed by the California Public Utilities Commission as published in its Maximum Rate Tariff applied to the number of hours involved in providing service, to the actual weight, or to the actual number of other units of measurement, subject to the design, unless in conflict with the rates and regulations of that tariff. Copies of the tariff are open for public inspection at the Commission's offices in San Francisco and offices of the carrier at whose address is shown on reverse side.
